### **BACK TO NATIVES RECEIVES HELPFUL DONATION FROM LOCAL COMPANY**

*BioQuip Products of Rancho Dominguez provides net so BTN can safely remove unwanted greenhouse visitors.*

**IRVINE, Calif., August 28, 2012** – **Back to Natives Restoration**, a 501 (c)(3) nonprofit public charity recently received a donation of a collapsible collecting net from Bioquip Products. The net will help Back to Natives gently remove birds, butterflies and wasps from the greenhouse at their recently established Back to Natives Nursery at Santiago Park in Santa Ana.

The nursery is helping to fulfill Back to Natives' mission to connect the community to habitat restoration through service learning and native plant education. Student volunteers help grow plants at the nursery which are used in habitat restoration or sold to raise funds for environmental education.

Back to Natives strives to involve the community in the process of ecological restoration and conservation because it believes that a little "ecological enlightenment" and a chance to "get your hands dirty" is the best way to improve relations between people and nature.

#### About Back to Natives

Back to Natives Restoration, a 501(c)(3) nonprofit organization, is dedicated to the restoration and conservation of Orange County and California wild lands, through education and restoration programs featuring native plants as a centralizing theme. For more information, please visit [www.backtonatives.org](http://www.backtonatives.org) or call 949-509-4787.
